

Double Spindle Bruter

Negative Clearance Spindle Design for better roundness Zero Maintenance Machine

Specifications

- Weight : 120 Kg
- Dimension : 900 x 380 x 950 mm (W x D x H)
- Supply : 415 VAC, 50 HZ, 3 Phase
- Load : 375 VA

Advantages

- Zero Backlash – Negative Clearance – Better roundness.
- Alignment for the lifetime – avoids table surface damage.
- Zero maintenance – longer life.
- High MTBF.
- Ergonomically designed controls for operators comfort.
- Fast investment return.
- The only solution for better roundness in low cost goods.
- Can be used with a Rotary Stick to get faster and better roundness.
