

Launch of Training Program to use “Goodwin” cut in Carbon Smart AnyCut

Date: 09th April, 2022

Optimizing the rough diamond by allocating most profitable Fancy Cut diamonds in it is the need of the hour. The industry is highly dependent on the skill set of a few expert polishers, which is on a decline.

In order to deskill this process and allocate fancy cut diamonds to optimize the rough with company-specific cuts and within customer-specific parameter limits, Lexus is introducing this training program to advance automation.

We are introducing this training program for “Smart AnyCut using Goodwin cut”, from 2nd May, 2022 at Lexus SoftMac. We will like to welcome progressive companies and individuals to take advantage of this program. Apart from acquiring this skill, the operator will also develop their own customized cut library for various shapes for better-performing diamonds.

We will be running two separate batches of 120 minutes each at our factory at GHB, Ichchhapore.

Please check a brief flow of the program shown here under:

Sr.No.	Description	Total Time (1800 minutes)
1	Introduction to Carbon Smart AnyCut	45 minutes
2	How to collect the models from helium polish and DC PRO for the library	30 minutes
3	How to select best performing models from collected models using Cutwise cloud	45 minutes
4	Facet type, model normalizing, and Goodwin cut	60 minutes
5	Planning fancy shapes like Marquise, Oval, Cushion, Emerald using Anycuts	120 minutes
6	How to select a plan and its criteria and how to upload the selected plan on Cutwise cloud for Cut evaluation	30 minutes
7	Discussion about Do's and Don't	30 minutes
8	Self-practicing to plan Different types of fancy shapes of Diamonds	1200 minutes
9	Examination	240 minutes

During this training program candidates will also be trained to prepare Goodwin Preform for allocation which will remain confidential & proprietary and will neither be disclosed to any other participants nor to Lexus employees.

Program Fee:

Per individual - Rs. 30,000 per person. (all charges are mentioned excluding taxes)

Corporate discount:

Two operators from the same company: Total discount INR 10k

Three operators from the same company: Total discount INR 20k

Evaluation:

The candidate will be evaluated on the basis of two different projects in the final evaluation test and will be awarded a Master, Expert or Beginner Level Certificate on the basis of his\her performance in the examination.

- **Master:** Candidates awarded master certificate can be considered as a Highly skilled operator who can train other operators to work with Carbon Smart AnyCut program.
- **Expert:** Candidates awarded as Expert can be considered as a Top skilled operator of Carbon Smart AnyCut
- **Beginner:** Candidates awarded as Beginner can be considered as someone who still needs to work under assistance of Master/Expert level operators.

Candidate who achieves Master level certificate will be rewarded by 70% of his total fees refunded back.

Batch Timing: Monday to Saturday

First Batch: - 10.00 AM to 12.00 PM

Second Batch: - 14.00 PM to 16.00 PM

In order to have a hybrid group, we will not take more than 3 operators from the same company in any batch. We will have less than 6 candidates in a batch.
